

## ***Medical Information Required***

*Dear Resident*

Anyone may at some point during their stay at the Village require emergency healthcare services. To enable the emergency responders and Frail Care Team to deal swiftly and efficiently with every emergency we strongly recommend that you have the following in place in your unit:

### **Create a personal wallet with the following documentation:**

- 1) Complete the form attached
- 2) Copy of your medical aid card
- 3) Copy of your ID
- 4) Copy of your latest medicine prescription

We recommend that you put the list of documentation in a plastic wallet (available at reception) behind **the MAIN BEDROOM DOOR** and in case of a **bachelor flat** behind the **FRONTDOOR** where emergency personnel can easily gain access to it. This will enable the responding team to convey any important information to the emergency teams or hospital especially when you are not able to convey this information yourself.

Copies of any documentation can be made at Reception in the Service Centre for R5 including the plastic wallet.

We will be starting a Monthly walk around in February where we will go through the evacuation plans, assembly points and that your Personal Wallet is easily accessible and visible.

Thanking you for your co-operation.

Kind regards

*Tracy-Lynne Daling*
